Calculating Monthly Rental Rates

Rates expressed are percentages of invoice price (including GST).
The calculated rental cost will be inclusive of GST.
Always round up monthly rates to the next dollar amount.

Refer to rates table opposite when calculating monthly payments.

Example - \$2,500 computer over 36 months

$\$2,500 \times 5.02\% = \125.50 per month

Round up to next dollar = \$126.00 per month.
