

HP recommends Windows Vista™ Home Premium

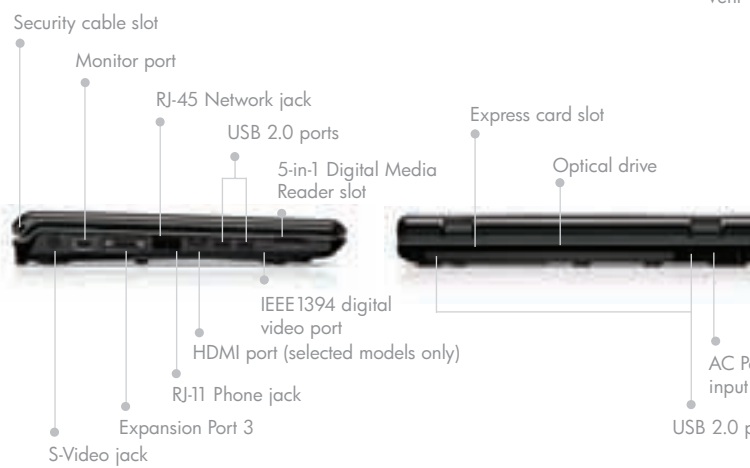

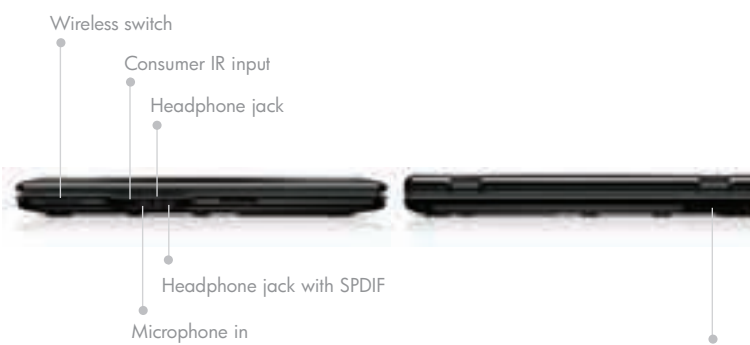

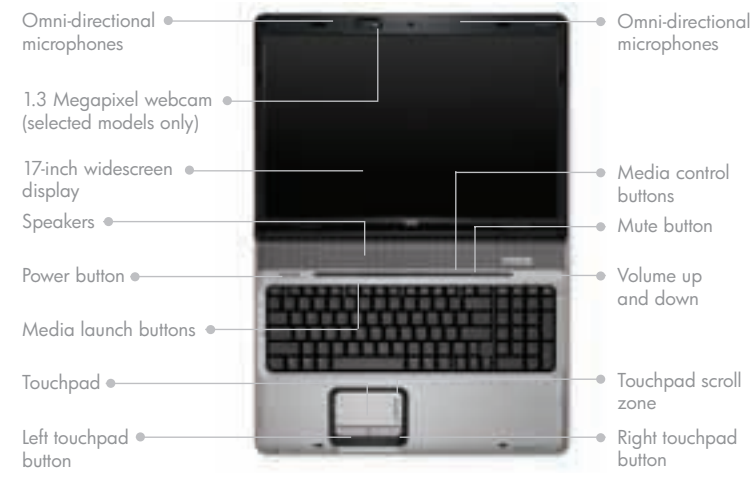

The HP Pavilion dv9200 series Entertainment Notebook PC is a large screen sensation with desktop class performance waiting to be discovered. Sporting a large 17-inch screen with optional dual lamp High Definition-capable widescreen display, movies and still images amaze with their clarity, brightness and sheer scale of presentation. As an entertainment platform, it has few rivals, thanks to one-touch media access with HP QuickPlay, NVIDIA® GeForce™ Go 7600, high performance Altec Lansing speakers, 2 omni-directional microphones, dual harddrive capability of up to 400GB, 5-in-1 media card reader slot, dual headphone jacks and even High Definition HDMI video output support. And it's powered by the cutting edge Intel® Core™ 2 Duo processor and genuine Windows Vista™ operating system, transforming your computing experience with its instantaneous response and enhanced multi-tasking ability. All this in a stylishly designed notebook that truly turns head. Now that's larger than life entertainment.

HP Pavilion dv9200 Accessories

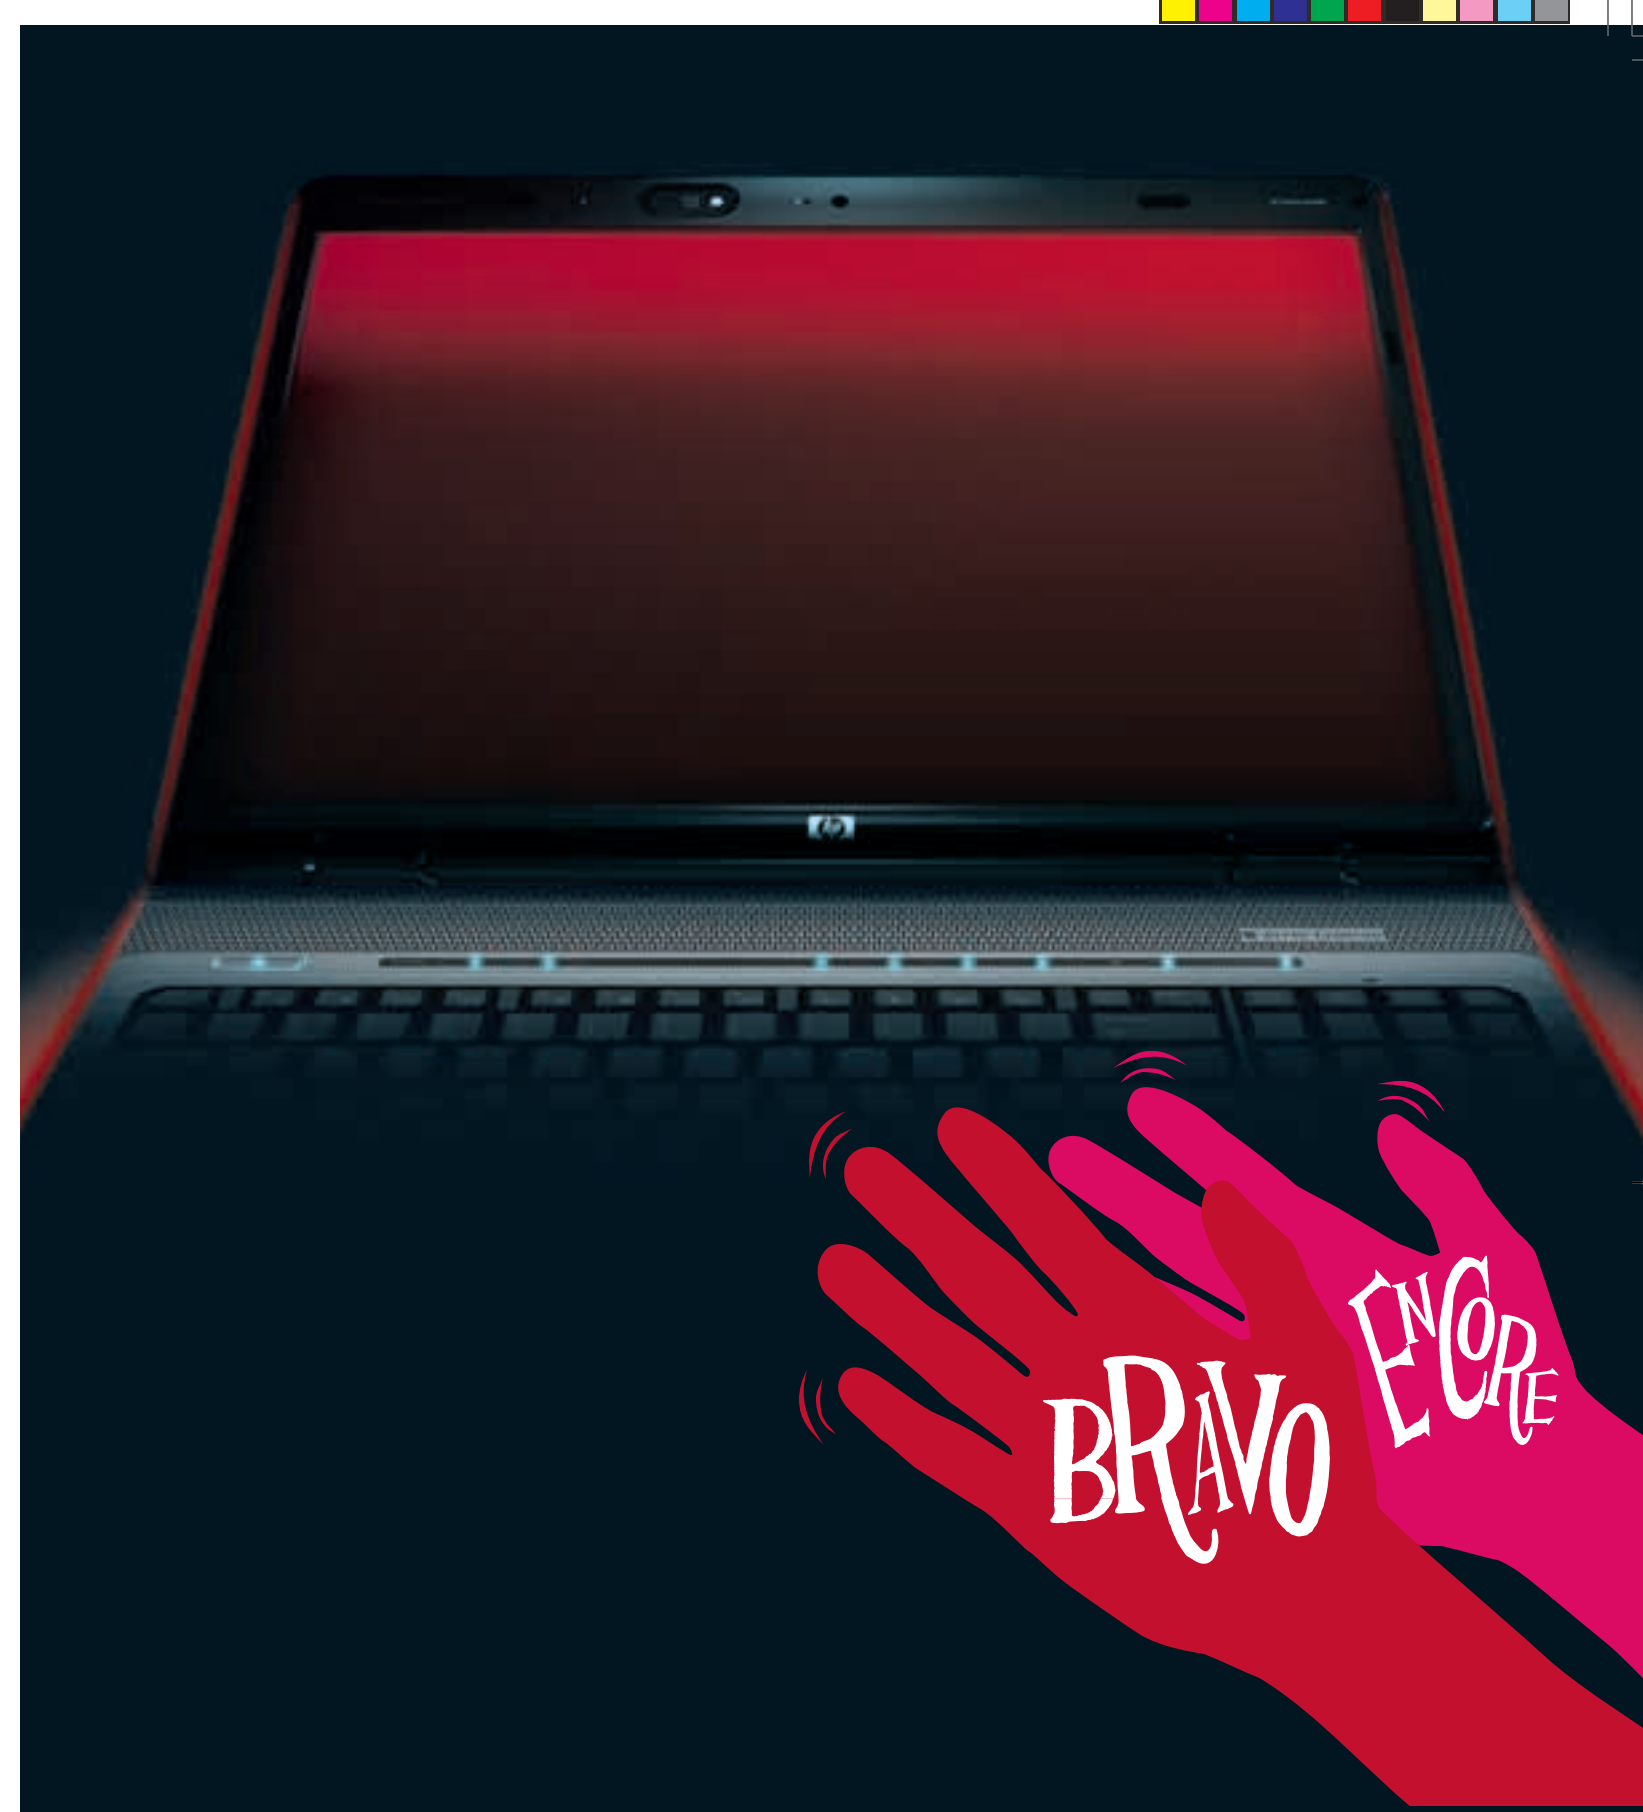

HP xb3000 notebook expansion base
Enjoy the comfort of a desktop experience with the convenience of a notebook.

HP Notebook QuickDock
Stay connected to everything—power, peripherals, entertainment and Network—with a single cable*. Say hi to a cleaner and neater work area with the HP QuickDock that works right out of the box.

HP 8-cell battery
Do more on the go with the additional battery in your bag. You will always be prepared for everything.

* When using a notebook that requires the Expansion Accessory adapter, the monitor must be connected directly to the notebook's VGA port.

Stylish notebook performance hits the big screen.

HP Pavilion dv9200 series Entertainment Notebook PC

HP recommends Windows Vista™ Home Premium

Designed for performance

NEW with Windows Vista™!

Enjoy entertainment with Windows Vista™
Extend your digital photography experience by creating and sharing photos at home, at the store or online using HP Imaging products and services that are designed to work seamlessly with Photo Gallery.

17-inch High-Definition* Brightview display with optional dual lamp
With optional dual lamp powering your viewing enjoyment, you can expect the brightest, most vivid colour video and still imagery. With a screen resolution of WXGA+ (1440 x 900), it's easy to keep multiple documents in view or enjoy the latest High Definition* content in their full splendour.

Best in class graphics performance
NVIDIA® GeForce™ Go 7600 delivers ultra-realistic effects and enhanced multimedia functionality for an incredible gaming and multimedia experience. Coupled with Pure Video technology, High Definition content* – such as movies and documentaries – can be enjoyed at their best.

* High Definition content (e.g. WMV HD files) is required to view High Definition images. Most current DVDs do not provide High Definition images.

1.3 Megapixel webcam
Make video calls or your own movies with the integrated webcam. Thanks to its 1.3 Megapixel resolution, video and still images are crisp and clear. And with two omni-directional microphones, it's easy to make yourself heard wherever you are seated.

Intel® Core™ 2 Duo processor
Experience the most responsive computing experience ever. This new processor sports an enhanced 64-bit data channeling structure and with two execution cores. Play graphics-intensive games or run demanding business programs – while downloading content from the Internet or running virus-scanning security programs in the background. Intel® Core™ 2 Duo now does it faster, smoother and more efficiently, while providing compatibility with 64-bit enabled applications.

Remote control
Control CDs and DVDs from the comfort of your easy chair. You can switch between photos, music and videos with just one touch.

Dual harddrive – up to 400GB
Enjoy the freedom of double storage. With up to 400GB storage, you can store hours of video, tens of thousands of image and music files right on the notebook itself. Ample storage space truly maximizes the HP Pavilion dv9200's role as the family entertainment hub.

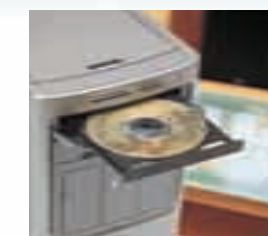

Big screen entertainment. Experience it now.

HP QuickPlay 3.0
Watch DVD movies and home videos, listen to music, browse photos – with enhanced user interface that enables better navigation of content. Access content from the hard disk and DVD drives for instant playback, and enjoy new features like the Karaoke module. HP QuickPlay utilizes the new Windows Vista™ capabilities for an all-rounded entertainment experience.

DVD +/- RW with Double Layer LightScribe technology
Here's a DVD drive that even labels your disc for you! LightScribe Direct Disc Labeling technology burns labels directly onto your CDs and DVDs. Simply insert a LightScribe compatible CD or DVD and a silkscreen quality disc label is easily laser-etched onto the disc.

Super fast wired or wireless networking
Equipped with 10/100/1000 integrated Gigabit LAN, even the largest video or data files are despatched with utmost speed over an Ethernet network. It allows you to stream high-quality video, music and more to anywhere you like. And with built-in wireless networking support for 802.11 a/b/g and optional Bluetooth, wireless communication is fast and fully compatible with any network.

HDMI and SPDIF support
HDMI socket interface offers a complete digital relay of video signal to your high definition display. While SPDIF output capability, makes it easy to connect the notebook to a home entertainment system and audio decoder to experience 5.1 surround sound audio.

Let your entertainment takeoff with capacitive buttons!

The capacitive buttons are like airport runways. They allow fast, direct access to your entertainment. Imagine having all your videos, music and photos always ready for takeoff. Just touch the button for instant enjoyment.

Time to play
Your favorite HD-DVD and DVD movies are only a touch away for takeoff. Just touch the button for instant enjoyment. If you wish to listen to your MP3 collection or view photos directly from your personal folder, just hit the media button. The QuickPlay screen will help get to the entertainment you want rapidly.

Media control buttons
Each button is backlight for easy access even under dim conditions – so you can play, pause, forward or rewind with ease.

Mute and volume control
Need to answer your phone while watching a movie? Just hit the mute, button. Want to add more punch to audio effects? Simply slide your finger across the volume pad. It's so easy.
