

LifeBook® S760 Notebook

Ready to meet the demands of tough-minded business professionals, the Fujitsu LifeBook® S760 notebook is amazingly light, yet features a 13.3-inch HD display. When security, reliability, and mobility are your top priorities, look no further than to Fujitsu.

OVERVIEW

Genuine Windows® 7 Professional or Windows Vista® Business

Road-ready at only 3.6 pounds with the 13.3 inch widescreen display and optional optical drive.

Industry-leading reliability with hard drive Shock Sensor, Magnesium-Alloy cover, and spill-resistant keyboard

Flexible security with Trusted Platform Module (TPM), fingerprint sensor, HDD & BIOS password protection, Security Panel and Computrace support

Versatile and easy to use with modular bay and port replicator support

BENEFITS

Don't be fooled by its thin form factor and light weight; the LifeBook S760 notebook is a real performer, with its powerful Intel® Core™ vPro™ Processor (optional) and long list of full-sized features. It not only breezes through the most intense computer tasks, it does it very efficiently, extending battery life so you can stop worrying about having to work longer than your battery. And your projects never looked better than on the HD WXGA LED backlit display.

Easy Deployment & Management

Simplify deployment and management—and ultimately reduce TCO—with the following features:

A modular bay that supports a variety of devices, including a Dual-Layer Multi-Format DVD Writer, a modular bay battery, and a convenient weight saver. The bay battery can be used to extend your computing time and the weight saver can lighten your load when traveling.

A variety of communications options are available so you can seamlessly stay in touch—practically anywhere.

Designed with you in mind

The LifeBook S760 notebook has an ergonomically redesigned keyboard. The frequently used (Fn, Arrow, Backspace, and Enter) keys have been enlarged to make them easier to find when typing quickly. Cumbersome scrolling is now a thing of the past with the all new independent touchpad (located next to the standard touchpad). Scrolling up and down documents or long Web pages can now be easily accomplished by moving your finger in a circular motion on the new scroll wheel. To take a shortcut to the bottom of a page, simply tape the pad. You will also be able to scroll up and down pages without disturbing the point function. Elegant in its simplicity, you will wonder how you ever lived without these features.

Security

A security system is only as good as the person using it. If it's cumbersome, chances are it won't get used. With that in mind, Fujitsu provides a rich array of security features that are easy to use yet hard to defeat.

Fujitsu offers a built-in optional biometric fingerprint swipe sensor that eliminates the need for managing multiple passwords. With a simple swipe of your finger, you can quickly and safely log on to a protected system and online accounts without having to enter cumbersome passwords.

The embedded Trusted Platform Module (TPM) protects digital identification and data, and can be used for platform authentication. It also allows users to securely store private keys and certificates for file and folder encryption, Web, email, digital signatures, and passwords.

With more than 800,000 possible passwords, the integrated theft-deterrent Security Panel provides both supervisor and user password levels, keeping your sensitive data accessible to only those who should see it.

Flexible Connectivity

With both 56K modem and Gigabit (10/100/1000) Ethernet LAN built-in, you can easily connect to your office network and the Internet at home or at work. To wirelessly stay in touch, the Intel® Centrino® Advanced-N 6200 AGN or Atheros XSPAN® (802.11 a/b/g/n) offers seamless and flexible connectivity with a very solid high-speed connection. If you use a Bluetooth-enabled cellular phone or PDA, your LifeBook S760 notebook can be equipped with integrated Bluetooth (version 2.1) wireless technology for data synchronization and swapping images or information.

Stable and Reliable

The LifeBook S760 notebook's sturdy magnesium cover, and spill resistant keyboard are some of the reasons Fujitsu notebooks are among the most reliable in the industry. In a time when most PCs are assembled by third-party vendors, Fujitsu takes pride in its own world-class design, rigorous testing, and manufacturing capabilities. Fujitsu provides extremely high quality mobile computers with one of the lowest failure rates in the industry.

LIFEBOOK® S760

SOFTWARE

Operating System Options	All options come with Microsoft® Office Ready PC and Microsoft® Office Professional 2007 60-Day Trial. Genuine Windows® 7 Professional (MUI), Bonus Media ¹ (ENERGY STAR® qualified) (Note: Systems with Genuine Windows® 7 Professional preinstalled will include Genuine Windows® 7 Professional HDD based recovery and Genuine Windows® XP Professional recovery and utility media.) Genuine Windows® 7 Professional, Downgrade Service (Note: Downgrade service to Genuine Windows® XP Professional. Systems with Genuine Windows® XP Professional preinstalled will include Genuine® Windows XP Professional and Genuine Windows® 7 Professional recovery and utility media.) Genuine Windows Vista® Business, Bonus Media ¹ (ENERGY STAR® qualified) (Note: Systems with Genuine Windows Vista® Business preinstalled will include both Genuine Windows Vista® Business and Windows® XP recovery disc and utility media.) Genuine Windows Vista® Business, Downgrade Service ¹ (ENERGY STAR® qualified) (Note: Systems with Genuine Windows Vista® Business preinstalled will include both Genuine Windows Vista® Business and Windows® XP recovery disc and utility media.)
Software	Office Ready with Microsoft® Office Professional 2007 60-Day Trial, Adobe Acrobat Reader®, Microsoft® Internet Explorer, Roxio Easy Media Creator, CyberLink PowerDVD™, Norton Internet Security 2009 ² , Fujitsu Portshutter, Fujitsu HotKey Utility, LifeBook Security/Application Panel, ArcSoft WebCam companion 2, Fujitsu Driver Update Utility, Trusted Platform Module (TPM) driver and applications CD
Optional Software	CyberLink PowerProducer, Bluetooth driver and applications Disc

KEY SPECIFICATIONS

(Listed specifications are for the current model only and NOT for earlier models or revisions to this product.)

Processor	Intel® Core™ i5-520M Processor (2.4 GHz, 3 MB L3 cache) Intel® Core™ i5-540M Processor (2.53 GHz, 3 MB L3 cache) Intel® Core™ i7-620M Processor (2.66 GHz, 4 MB L3 cache) Intel® Core™ i5-520M Processor (2.4 GHz, 3 MB L3 cache) w/ Intel® vPro™ Technology Intel® Core™ i5-540M Processor (2.53 GHz, 3 MB L3 cache) w/ Intel® vPro™ Technology Intel® Core™ i7-620M Processor (2.66 GHz, 4 MB L3 cache) w/ Intel® vPro™ Technology
Chipset Options	Intel® GM45, ibexPeak-M (PCH) QM57 or HM55
Memory	Two DIMM slots; up to 4 GB (2 GB x 2); DDR3-1066 MHz SDRAM dual-channel memory module (Note: When 4 GB of memory is installed in a Genuine Windows Vista® system, approximately 3.3 GB is addressable memory; the upper memory is reserved by Genuine Windows Vista® for hardware usage)
Display	LCD 13.3" WXGA HD display Video NVIDIA N11M-GE1 with a total of 512 MB dedicated graphics DDR3 memory Integrated Intel® HD Graphics Resolution Internal Display: Max. 1366 x 768, 16M colors External Only: Max. 1600 x 1200, 16M colors Simultaneous: Max. 1366 x 768, 16M colors
Webcam	Integrated 1.3 mega-pixel webcam
Hard Drive³	160 GB (5400rpm), 320 GB (5400rpm), available with full disk encryption, 500 GB (5400rpm), 320 GB (7200rpm), 128 GB solid state drive (MLC), 256 GB solid state drive (MLC)
Optical Drive	Modular Dual-Layer Multi-Format DVD Writer
Audio	Realtek™ codec ALC269 with 2-channel High Definition (HD) audio Stereo headphone/line-out jack, Stereo microphone/line-in jack, two built-in stereo speakers and microphones
Communication	Multinational ⁴ 56K ⁵ V.92 modem, Gigabit (10/100/1000) Ethernet LAN
Wireless Communication Options	Intel® Centrino® Advanced-N 6200 AGN Atheros XSPAN® (802.11 a/b/g/n) Bluetooth wireless
User Interfaces	Integrated touchpad with scroll button; 84-key full-size, spill-resistant keyboard with 19 mm key pitch and 2.7 mm key stroke
Ports	Three USB 2.0 ports (With Intel® UMA), two USB ports and one USB 3.0 port (with NVIDIA®), Modem (RJ-11), Gigabit Ethernet LAN (RJ-45), Headphone/audio-out jack, Microphone/audio-in/jack, IEEE 1394 (4-pin), Docking port, HDMI port, External monitor, Power Connector
Card Slots	PCMCIA card slot or Express Card® slot
Security	Optional biometric fingerprint sensor (replaces scroll button), Integrated Security Panel, embedded TPM, HDD and BIOS password protection, Security lock slot
Battery⁶ Options	Main Lithium ion battery (6-cell, 5800 mAh); Battery life approx. 6 hours Main Lithium ion battery (6-cell, 5800 mAh) + modular bay battery (2500 mAh); Battery life approx. 10 hours
AC Adapter	Auto-sensing 100-240 V AC, 80W, supplying 19V, 4.22A
Dimensions/Weight	12.44" x 8.94" x 0.97/1.27"; approx. weights: 3.44 lbs. with Weight saver, 3.73 lbs with Dual-Layer Multi-Format DVD Writer, 3.99 lbs. with Modular bay Battery
Operating Temperature	41°F to 95°F / 5°C to 35°C (ambient temperature); 20% to 85% relative humidity, non-condensing
Non-Operating Temperature	5°F to 140°F / -15°C to 60°C, 8% to 85% relative humidity; non-condensing
Key Accessories	Port Replicator: Has external CRT, DVI-D, KB/mouse, Serial, Parallel, USB LAN, Audio out and in, e-SATA, Display ports, and power button For a full list of accessories, visit www.shopfujitsu.com or call 1-800-FUJITSU

COMPLIANCE AND SERVICE INFORMATION

Compliance	FCC Part 15B Class B and FCC Part 15C; FCC Part 15E; IC ICES-003 Class B and RSS-210, UL-cUL Listed, FCC Part 68; IC CS-03 ,CE Marking (Not supported when configured with the WLAN module)
Warranty⁷	One- or three-year International Limited Warranty on select corporate configurations; 24/7 technical support; Fujitsu extended service plans available.

Fujitsu America, Inc.

1250 East Arques Avenue
Sunnyvale, CA 94085-3470, U.S.A.
Telephone: 800 831 3183 or 408 746 6000
Fax: 408 764 5060
Web: us.fujitsu.com/solutions
Email: solutions@us.fujitsu.com

1) Bonus Media only available in North America
2) Preinstalled with a free 90-day trial version of Symantec Norton Internet Security 2009. The 90-day trial version is activated upon user's acceptance of software license agreement. After 90 days, the user must purchase a subscription from Symantec to download latest virus definitions.

3) One gigabyte (GB) = one billion bytes; accessible capacity will be less and actual capacity depends on the operating environment and formatting.

4) The internal modems on all Fujitsu notebooks from Fujitsu America, Inc. are only qualified for use with telephone systems in selected countries, including the United States and Canada. For a list of certified countries, please check <http://solutions.us.fujitsu.com/modems>

5) Actual speeds over U.S. telephone lines vary, and are less than 56 Kbps due to the current FCC regulations and line conditions.

6) Battery life estimates reflect the results of BAPCo MobileMark2007 Productivity Workloads performed upon systems with battery life setting enabled. Actual battery life will vary based on screen brightness, applications used, features selected, power management settings, battery conditioning, and other customer preferences. LAN, wireless LAN, optical drive, or hard drive usage may also have a significant impact on battery life.

7) Service and warranty turnaround time may vary by country and product. International warranty valid only for products purchased in North, Central, and South America.
